Acupuncture

Practiced for thousands of years, acupuncture is quickly becoming one of the fastest growing alternative therapies and is often used to complement and enhance the benefits of traditional medicine. Our onboard acupuncturist is certified to safely and effectively treat a variety of conditions, and can help alleviate your symptoms.

What is Acupuncture?

Acupuncture is a traditional Chinese medicine practiced for thousands of years in China and other Eastern countries. Acupuncture subscribes to the ancient view that the basis of good health is the harmonious balance of qi (chi), the vital life force that empowers the body. When the qi can flow freely, health abounds. If this energy becomes stagnant or blocked, the effects will result in loss of energy and the deterioration of well-being. The acupuncturist's goal is to release blocked energy by applying sterilized needles to key points on the body to restore balance and improve health.

What does it treat?

The National Institutes of Health (NIH) and the World Health Organization (WHO) have found acupuncture can successfully treat the following conditions:

Anxiety	Fatigue	Rhinitis
Arthritis	Fibromyalgia	Sciatica
Bone Pain	Gastritis	Sea Sickness
Crohn's Disease	GERDs	Sinusitis
Chronic Fatigue	Headaches	Smoking Cessation
Cold / Flu	IBS	TMJ
Constipation	Insomnia	Weight Issues
Diarrhea	Joint Pain	
Dizziness	Nerve Pain
